Judges : Will be appointed by THSF.

Competition Schedule: The opening and closing ceremonies, as well as flights for all categories, will take place on **6–7 June 2026**.

Accommodation: Participants will make their own arrangements.

Food & Beverages: Lunch will be provided as a packed meal at the competition field on competition days. Buffet services will be available at the field throughout the event. Buffet services will be subject to a fee.

Results: Competition results will be published live and online at the end of each round, using a dedicated software that will be provided to all competitors.

Reserve Day: Sunday, 7 June 2026.

The competition timetable, lane assignments, and judge appointments will be published online via the relevant software one week before the competition.

General Rules

1. Each competition tower will have one judge and one set of binoculars.
2. Depending on wind conditions, the round flight times may be adjusted by the jury.
3. Registration confirmation and payment of participation fees can be made at the competition field.
4. Awards: Trophies, medals, and certificates will be presented to the top three competitors in each category.
5. The awards ceremony will be held on 6 June 2026 after the championship ends, at the restaurant where the banquet dinner will take place.

Note: Restaurant details will be announced later.

6. All altimeter devices are accepted, provided that a reference reading is taken at the judge's position before the flight.

Recommendations:

Competitors and spectators should bring everything they may need during the competition. Water, biscuits, a hat, sunglasses, sunscreen, and insect repellent may be required at the field. We recommend that all participants carry a working mobile phone.

Field Rules:

- The settling/setup area will be determined depending on wind conditions.
- No motor vehicles are allowed in the flight area. All motor vehicles must remain in the parking area.
- No motor vehicles may be used for model retrieval. *(This is grounds for disqualification.)*
- Maximum care must be taken to keep the meadow area clean and to protect the neighboring agricultural fields without causing any damage.
- All waste must be placed in trash bags.
- Without permission from the organizer, no flying vehicles other than the models included in the competition classes may be used at the field.
